

CEM-205: Manage Citrix Endpoint Management

Duration: 3 Days

Prerequisites:

Required:

- Network architecture and terminology
- Mobile device operating systems, such as iOS and Android
- Microsoft Windows Server 2012 R2 or Windows Server 2008 R2, and Microsoft Windows 8.1 or Windows 7

Course Description:

Students will explore how to manage Citrix Endpoint Management in this three-day course. Venture into the cloud as students learn to manage devices, apps, and users. Students will learn how the architecture, management, and communication flow function with Citrix Endpoint Management Service and how they can fit their organization's needs. You will learn how to administer their Citrix Endpoint Management environment and how to support your end users, as well as work with applications and secure a variety of endpoints.
