

ISO/IEC 27701 Lead Implementer

Duration: 5 Days

Course Description:

The ISO 27701 Lead Implementer course is a comprehensive training program designed for professionals seeking expertise in implementing a Privacy Information Management System (PIMS) based on ISO/IEC 27701. This course provides in-depth guidance on the standard, its requirements, and the steps necessary for effective implementation. Participants will learn about regulatory frameworks, fundamental security and privacy concepts, and how to conduct privacy risk assessments. Throughout the course, learners will gain practical skills for planning, implementing, monitoring, and improving a PIMS, as well as preparing for a certification audit. The **ISO 27701 certification cost** may vary, but investing in this course equips professionals with the knowledge to become **ISO 27701 Lead Implementer** certified, demonstrating their ability to help organizations manage privacy risks and comply with privacy regulations. Upon completion, participants will be well-prepared to take the certification exam, which is integral to the training program.

Course Prerequisites:

- Basic understanding of privacy concepts and principles, including an awareness of personal information and data protection.
- Familiarity with management systems, particularly the concepts, principles, and requirements of ISO/IEC 27001 (Information Security Management Systems).
- Knowledge of how an Information Security Management System (ISMS) operates, which can be gained from experiences such as working within an ISMS or through previous training.
- Awareness of general IT and data protection regulatory requirements that might affect an organization's privacy management.
- Ability to comprehend and interpret the requirements of ISO/IEC 27701 in the context of an existing ISMS.
- Willingness to engage with the course material and participate actively in all the training activities, including group discussions and exercises.
- Please note that while these prerequisites are aimed at ensuring participants can fully engage with the course material, we encourage learners of all backgrounds who are interested in privacy information management to consider this training. Our experienced instructors will guide you through the course content to help you become a skilled ISO 27701 Lead Implementer.
