

# SAFe® Lean Portfolio Management (LPM)

**Duration: 3 Days**

## Course Description:

Transforming strategy into action is essential for the success of any organization, and Scaled Agile Framework® contributes significantly to this goal. Our Lean Portfolio Management (LPM) course provides powerful tools to coordinate among cross-functional teams, grant more freedom to your groups, and remain oriented towards value creation even during extreme change.

This LPM course will help executives, PMOs, and other relevant stakeholders adjust their initiatives in response to changes in the business environment. You'll learn how portfolio strategy aligns with work execution within agile frameworks and how feedback from participatory budgeting can be integrated into the process. Also, you'll acquire the necessary guidance and tools to function effectively in remote settings working with dispersed team members while maintaining your budgeting vision.

## Course Objectives:

- Portfolio Connect to Enterprise Strategy
- Establish the Portfolio Vision
- Implement Lean Budgeting and Guardrails
- Establish flow with the Portfolio Kanban
- Support operational excellence with an Agile Program
- Management Office (PMO) and Communities of Practice (CoPs) Coordinate Value Streams
- Measure LPM performance
- Build a plan for LPM implementation

## Intended Audience:

The SAFe® 6.0 Lean Portfolio Management Certification course is for anyone involved in software development using the Scrum Framework. It is particularly beneficial for those within an organization, accountable for maximizing Scrum.

## Course Outlines:

- Scrum Theory And Principles
