

Leading SAFe® 6.0 Training with SAFe® Agilist

Duration: 2 Days

Course Description:

This Leading SAFe 6.0 Training and leading SAFe Certification will help equip your organization with the insights needed to create a thriving Lean-Agile culture. Participants will gain a comprehensive understanding of the principles and practices behind SAFe to facilitate efficient transformations within their organization.

During this two-day course, you'll learn how to align objectives, deliver consistent customer satisfaction and execute influential planning events such as PI Planning - all elements that will help grow your business when used together. Invest in this training for yourself or your team today and experience the positive results of increased customer centricity and organizational resilience that come with it!

Course Objectives:

- Apply SAFe® in an enterprise context to enable continuous exploring, integrating, deploying and releasing values.
- Enhance Lean-Agile leadership skills and help cascade Lean-Agile Mindset and principles across the organisation.
- Enable Lean-Agile transformation at the enterprise level to achieve business agility
- Coordinate the development of large solutions by improving communication and collaboration across all projects
- Empower with a Lean Portfolio and apply Agile across the organisation, not just to the IT delivery teams

Intended Audience:

The Leading SAFe® Agilist 6.0 Certification course is for anyone involved in product and solution development at the scale using Scaled Agile Framework® (SAFe®). It is particularly beneficial for:

- Chief Executive Officer
- Portfolio Manager, Consultant
