

Professional Scrum Master (PSM-I) Certification

Course Duration: 2 Days

Course Description:

This two-day class invites students to explore and gain insight into the Agile and Scrum principles. With professional Scrum Trainers (PSTs) guidance, teams will be equipped with the resources needed to apply Scrum effectively. PSTs provide their experiences and stories in a stimulating instructor-led, activity-based learning environment.

After this course, students can comprehend fundamental concepts of Professional Scrum, attain an appreciation for agility, and understand how to select proper practices that enhance their respective Scrum Teams. Furthermore, they have the tools necessary to untangle common myths and obstructions blocking avenues of agile transformation.

Course Objective:

- A clear understanding of the rules of Scrum through the empirical foundation of Scrum
- Act as Scrum Masters for Scrum Teams and stakeholders from an in-depth understanding
- Effectively start using Scrum within your organization to solve complex adaptive problems
- Increase the effectiveness of Scrum teams through coaching and facilitation

Target Audience:

The Professional Scrum Master course is for anyone involved in product delivery using the Scrum framework. It is particularly beneficial for those people within an organization accountable for getting the most out of Scrum, including Scrum Masters, managers, and Scrum Team members. We also suggest that you read through the PSM Subject Areas.

Course Outline:

- Scrum Theory and Principles
- The Scrum Framework
- Scrum Roles – Product Owner, Scrum Master and Development Team
- The Definition of Done & Acceptance Criteria
- Product Delivery with Scrum Framework
- Working With People and Teams
- Working With Organizational Challenges
- The Role of Scrum Master
