SAFe® Scrum Master (SSM)

Duration: 2 Days

Course Description:

Do you want to become a SAFe-certified Scrum Master with the skills and shadowing needed to help leading companies succeed?

The SAFe® Scrum Master course is here to help. Get the tactical knowledge and guidance you need to be a successful leader in remote or distributed teams. Learn how scrum masters motivate and guide Agile teams, facilitate APM events like iteration planning, team sync, and retrospectives, plan projects through SAFe Scrum and Kanban techniques, and follow servant leadership practices. Let's get you up-to-date on everything related to this profession so you can confidently lead your high-performing Agile team!

Course Objectives:

- Describe Scrum in a SAFe enterprise.
- Facilitate Scrum events.
- Facilitate effective Iteration execution.
- Support effective Program Increment execution.
- Support relentless improvement.
- Coach Agile teams for maximum business results.
- Support DevOps implementation.

Intended Audience:

- Scrum Masters who need to perform the role
- Scrum Masters who would like to understand their role in the context of a SAFe enterprise
- SAFe Release Train Engineers who want to coach Scrum Masters on their role

Course Outlines:

- Introducing Scrum in SAFe®
- Characterizing the role of the Scrum Master
- Experiencing Program Increment planning
- Facilitating Iteration execution
- Finishing the Program Increment
