

COURSE OUTLINE

71301V - Integrating Avaya Aura Communications Applications

Duration: 5 Days

Prerequisites:

- Basic knowledge of Voice over IP (VOIP) technology
- Basic knowledge of Session Initiation Protocol (SIP) Integration
- 71201C or 71201V, Integrating Avaya Aura® Core Components

Course Description:

This 5-day Virtual Instructor-Led course is designed for individuals responsible for integrating the Avaya Aura® Communications Applications.

Delivered in a virtual classroom setting with remote access to a lab environment, this offer consists of a combination of interactive instructor lectures followed by practical lab exercises.

This course is recommended for students preparing to take the 71301X Avaya Aura® Communication Applications Implement Certified Exam.

Course Objectives:

- Describe the function of the Communication Application products
- Integrate Avaya Aura® Session Border Controller Enterprise (ASBCE) with the Aura® Core
- Configure ASBCE for SIP Trunking and Remote Worker
- Integrate Avaya Breeze® with the Aura® Core
- Configure Presence, Instant Messaging and Multimedia Messaging for Presence Services Snap-ins for Avaya Breeze®
- Deploy and configure the Call Park and Page Snap-in for Avaya Breeze®
- Integrate Avaya Aura® Web Gateway and Avaya Spaces Calling with the Aura® Core
- Integrate Avaya Application Enablement Services (AES) with the Aura® Core
- Implement Branch Survivability for the Aura® Core
- Integrate and configure Internet Friendly Gateway with the Aura® Core

Target Audience:

This course is recommended for students preparing to take the 71301X Avaya Aura® Communication Applications Implement Certified Exam.

Course Outlines:

- Module 01 – Lab Familiarization (Exercise)
- Module 02 – Avaya Breeze® Overview
- Module 03 – Avaya Presence Services Overview and Key Features
- Module 04 – Avaya Breeze® and Avaya Presence Services Deployment, Configuration and Integration
- Module 05 – Deploying Avaya Breeze® with Presence Services Snap-In (Exercise)
- Module 06 – Multimedia Messaging on Avaya Aura Presence Services
- Module 07 -Enabling Multimedia Messaging on Avaya Aura Presence Services (Exercise)
- Module 08 – Avaya Call Park and Page Overview and Key Features
- Module 09 – Deploying Avaya Breeze® with Call Park and Page Snap-In (Exercise)
- Module 10 – Avaya Session Border Controller for Enterprise (ASBCE) Overview
- Module 11 – Avaya Session Border Controller for Enterprise Licensing
- Module 12 – Licensing Avaya Session Border Controller for Enterprise (Exercise)
- Module 13 – Avaya Session Border Controller for Enterprise Deployment
- Module 14 – Deploying Avaya Session Border Controller for Enterprise (Exercise)
- Module 15 – Avaya Session Border Controller for Enterprise TLS Certificate Management
- Module 16 – Managing Avaya Session Border Controller for Enterprise Public and Private Certificates (Exercise)
- Module 17 – Avaya Session Border Controller for Enterprise SIP Trunking
- Module 18 – Configuring Avaya Session Border Controller for Enterprise SIP Trunking (Exercise)
- Module 19 – Avaya Session Border Controller for Enterprise Remote Worker
- Module 20 – Configuring Avaya Session Border Controller for Enterprise Remote Worker (Exercise)
- Module 21 – Avaya Session Border Controller for Enterprise Advanced Features
- Module 22 – Avaya Aura Web Gateway with Spaces Calling
- Module 23 – Deploying Avaya Aura Web Gateway with Spaces Calling (Exercise)
- Module 24 – Application Enablement Services (AES)
- Module 25 – Configuring connectivity between AES and Avaya Communication Manager (Exercise)
- Module 26 – Branch Survivability
- Module 27 – Enabling Branch Survivability Features (Exercise)
- Module 28 – Internet Friendly Gateway
- Module 29 – Configuring Internet Friendly Gateway (Demo)
