FCX Immersion

Duration: 2 Days

Course Description:

In this two-day self-paced lab environment, you will be challenged to configure a variety of Fortinet products based on a set of objectives. Fortinet products in the lab include FortiGate, FortiManager, FortiAnalyzer, FortiWeb, FortiMail, FortiADC, FortiAuthenticator, and FortiSandbox.

Target Audience:

Networking and security professionals in pursuit of an FCX certification.

Prerequisites:

- Students must pass the current NSE 8 - Network Security Expert 8 Written exam before attempting this course.
- Technical requirements:
  - Laptop (minimum 15" screen)
  - Internet connection allowing outbound access to port 443/TCP
  - A modern browser supporting HTML5 (Chrome recommended)

Course Objectives:

After completing this course, you will have a better understanding of the level and complexity of the tasks and topology that are involved with the NSE 8 - Network Security Expert 8 Practical exam. This will help you to prepare for the practical exam, where you will be faced with a different set of tasks and a new topology of the same complexity level.

Course Outlines:

- ➢ Networking
- ➢ Operations
- ➢ VPN
- ➢ Policies
- ➢ Authentication
- ➢ Management
- ➢ Advanced Technologies
