

CMMC Certified Assessor™ (CCA™)

Duration: 3 Days

Course Description:

A CMMC Certified Assessor™ (CCA™) is the certification required to perform formal CMMC Level 2 certification assessments within the US Department of War's (DoW) cybersecurity ecosystem. A CCA equips experienced cybersecurity professionals with the advanced skills needed to evaluate evidence, validate security controls, conduct interviews, and determine whether organizations handling Controlled Unclassified Information (CUI) meet CMMC Level 2 certification requirements.

Target Audience:

- IT & Security Practitioners Transitioning Into Compliance.
- Government Contractors & Defense Industry Personnel.
- Risk, Audit, And Compliance Professionals. Aspiring Lead CCAS

Course Outlines:

DOMAIN 1 – Evaluating Organizations Seeking Certification (OSC) Against CMMC Level 2

- Assess the various environmental considerations of Organizations Seeking Certification (OSCs) against CMMC Level 2 practices.

DOMAIN 2 – CMMC Level 2 Assessment Scoping

- Analyze the CMMC assessment scope of Controlled Unclassified Information (CUI) assets as they pertain to a CMMC assessment using the five categories of CUI assets as defined in the CMMC Level 2 Assessment Scoping Guide.
- Given a scenario, analyze the CMMC assessment scope based on the redetermined CUI categories within the CMMC Level 2 Assessment Scoping Guide.
- Evaluate the CMMC assessment scope considerations based on the CMMC Level 2 Assessment Scoping Guide.

DOMAIN 3 – CMMC Assessment Process (CAP)

- Given a scenario, apply the appropriate phases and steps to plan, prepare, conduct, and report on a CMMC Level 2 Assessment.

DOMAIN 4 – Assessing CMMC Level 2 Practices

- Identify evidence verification/validation methods and objects for practices based on the CMMC Level 2 Assessment Guide and CMMC Assessment Process (CAP) documentation.
