

# CMMC Certified Professional™ (CCP™)

**Duration:** 4 Days

**Course Description:**

A CMMC Certified Professional™ (CCP™) is the foundational certification for anyone seeking to work within the implementation and assessment ecosystem of the US Department of War's (DoW) Cybersecurity Maturity Model Certification (CMMC) program. It validates that you are ready to help organizations achieve assessment-ready cybersecurity programs or participate on a CMMC Assessment Team during official CMMC assessments. Plus, CCP is the required first step toward becoming a CCA, providing a clear advancement pathway into assessment and higher-level consulting roles.

**Target Audience:**

- DoW suppliers preparing for CMMC compliance
- It/security managers at dib companies
- Grc/compliance leads driving CMMC programs
- Aspiring CMMC assessors
- Early-career professionals entering dib cyber compliance

**Course Outlines:**

**DOMAIN 1 – CMMC Ecosystem**

- Identify and compare roles/responsibilities/ requirements of authorities across the CMMC ecosystem.

**DOMAIN 2 – CMMC-AB Code of Professional Conduct (Ethics)**

- Identify and apply knowledge of the guiding principles and practices of the CMMC-AB Code of Professional Conduct (CoPC)/ISO/IEC/DOW requirements.

**DOMAIN 3 – CMMC Governance and Source Documents**

- Demonstrate understanding of Federal Contract Information (FCI) and Controlled Unclassified Information (CUI) in nonfederal unclassified networks.
- Determine the appropriate roles/responsibilities/authority for FCI and CUI.
- Demonstrate understanding of the CMMC source and supplementary documents.

**DOMAIN 4 – CMMC Model Construct and Implementation Evaluation**

- Given a scenario, apply the appropriate CMMC source documents as an aid to evaluate the implementation/review of CMMC practices. (At a minimum CCP candidate must be evaluated on CMMC L1 Practices during CCP exam.)
- Apply knowledge of the CMMC assessment criteria and methodology to the appropriate CMMC practices.
- Analyze the adequacy/sufficiency around the location/collection/quality/usage of evidence.

**DOMAIN 5 – CMMC Assessment Process (CAP)**

- Choose the appropriate roles of the CCP in the CMMC Assessment Process when developing the assessment plan (Phase 1 Plan and Prepare Assessment).
- Apply CMMC Assessment Process requirements pertaining to the role of the CCP as an Assessment Team Member while conducting a CMMC assessment (Phase 2 Conduct Assessment).
- Demonstrate comprehension of the CCP role in the preparation of assessment report (Phase 3 Report Assessment Results).
- Demonstrate comprehension of the CCP role in the process of evaluating outstanding assessment issues on plan of action and milestones (POA&M) (Phase 4 Evaluation of Outstanding Assessment POA&M Items).
- Given a scenario, determine the appropriate phases/steps to assist in the preparation/conducting/reporting on a CMMC Level 2 Assessment.

**DOMAIN 6 – Scoping**

- Understand CMMC high-level scoping as described in the CMMC Assessment Process.
- Given a scenario, analyze the organization environment to generate an appropriate scope for FCI Assets.
